

4. SoftEther VPN Client Manual

SoftEther VPN Client is VPN client software with a Virtual Network Adapter function that enables connection to a Virtual Hub on SoftEther VPN Server operated at a remote location. The user can use the easy settings on a computer with SoftEther VPN Client installed to connect to a Virtual Hub on SoftEther VPN Server and flexibly connect via a Virtual Network Adapter.

This chapter describes the functions of SoftEther VPN Client and how to use the functions.

SoftEther VPN Client is provided as a free software product. To use all of the functions at no cost, you must agree to the end-user license agreement.
