

VPN for IT Professionals

banner4.jpg

SoftEther VPN is also an ultra-convenient tool for effective system management by IT professionals on enterprises and system integrators.

Remote Management

A lot of servers, clients and banner4_1.jpg printers of your client companies are distributed around the state? SoftEther VPN helps a network administrator as a handy tool. Just from your desk, you can reach to any networks which you have installed SoftEther VPN in advance.

Building Your Own Cloud

You want to build and banner4_3.jpg provide your own Cloud service which can beat Amazon EC2 or Windows Azure? SoftEther VPN helps you to build an inter-VMs network and remote-bridging network between your Cloud and your customer's on-premise.

VPN for Network Testing, Simulation and Debugging

SoftEther VPN is not a banner4_2.jpg program only for building remote network. It can be used for network design, test, and simulation by IT professionals. For example, delay, jitter and packet loss generator is implemented on SoftEther VPN so network designer can test VoIP phones under the bad-condition IP network.
